Subject: Class VI Primacy

...

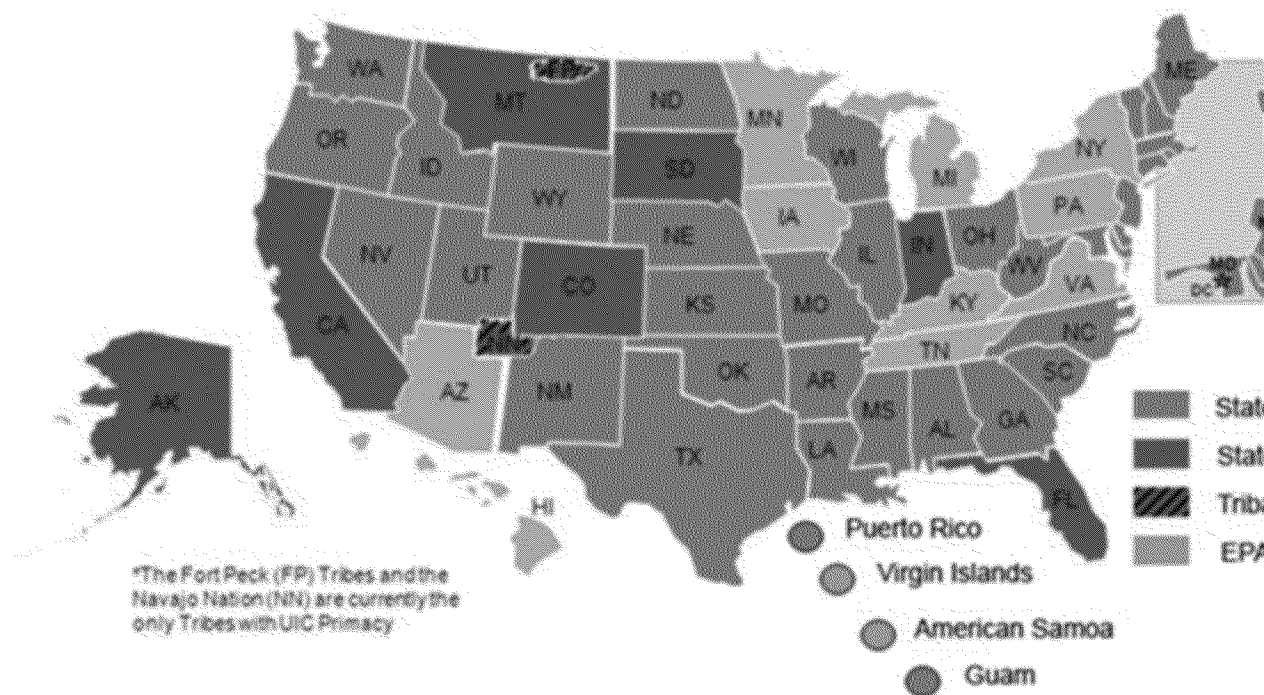

The information below was brought to my attention and I am hoping to get an answer as to what this mean.

Thank you for your time and assistance. I hope everyone is well.

<http://water.epa.gov/type/groundwater/uic/primacy.cfm>

Who currently has primacy?

EPA has approved primacy programs for all well classes I, II, III, IV and V in 34 states. EPA has direct responsibility with 7 states (i.e., EPA has authority over some classes and the state does not). EPA directly implements the Class VI Program nationally, except for the State of North Carolina.

Currently, two tribes have Class II primacy.

- Visit the page on UIC Programs on Tribal Lands for more information.
